## Introduction

Paper layout preparation guidelines assist you in the preparation of camera-ready papers. Guidelines also imitate a prepared text, i.e. have all the potential text elements already prepared as they should be in the camera-ready paper. Your task is to prepare your paper in the exact way it will be published in the INFuture2007 proceedings<sup>1</sup>. **Maximum of 10 pages is allowed!**

You have received two versions of this guidelines and a template file:

- PDF version (INFuture2007-Paper Submission Guidelines.pdf),
- MS Word version (INFuture2007-Paper Submission Guidelines.doc),
- MS Word document template version (INFuture2007.dot).

You should use them in the following way.

## PDF version

PDF version is not containing references of the MS Word style names. It could be used as a reference for the text preparation.

---

<sup>1</sup> The papers will be peer-reviewed and the proceedings will have an ISBN number.

## **Guidelines**

### **Font**

You should use Times New Roman font throughout the text. Follow the sizes specified in the Table 1 for different text elements.

### **Format**

You should prepare the camera-ready paper on the A4 paper size (210 mm x 297 mm) with the margins set as follows: top and bottom (5.2 cm), left and right (4.25 cm).

Align text both on the left and right margin (justify). Use single space between the text and the subtitles. Do not add space between paragraphs or footnotes.

### **Tables, diagrams, charts, pictures**

#### *Tables, diagrams and charts*

Number each table/diagram/chart. The table/diagram/chart heading should be placed above the table/diagram/chart. Try to add the table/diagram/chart after it is mentioned in the text. Add source information below if applicable. In diagrams and charts, use black/white/shades of grey/pattern fillings rather than colour.

#### *Pictures*

Number each picture. The picture heading should be placed below the picture. Try to add the picture after it is mentioned in the text. Add source information if applicable. All pictures will be printed in black and white.

### **Conclusion**

Be short and up to the point. Do not use tables, diagrams, charts or pictures in the conclusion.
