microform

international partner group takes over development and responsibility

Eko-Monitor d.o.o.

em-ha-023

International Network for Expertise and Experience in Imaging, Document Management and Archiving

Microform Partner Group means companies that have taken over development and business of "Agfa MDS" division.

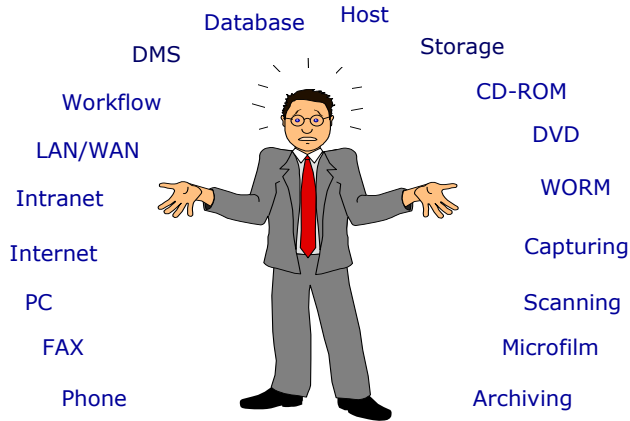

There are integrated original producers of scanning, micrographic and software equipment with specialists for implementation and maintenance for archiving and document management solutions.

Wherever the user might be, he will always find high level of quality from consultancy to technical support.

em-ha-023

There is no technology that means solution by itself

Solution means integration, understanding customer needs

Eko-Monitor d.o.o.
