## Summary

*Summary text. It is strongly suggested that summary and key words should both be on the first page.*

**Key words:** preferably one line of key words, maximum of two lines of key words is allowed

## Introduction

Paper layout preparation guidelines assist you in the preparation of camera-ready papers. Guidelines also imitate a prepared text, i.e. have all the potential text elements already prepared as they should be in the camera-ready paper. Your task is to prepare your paper in the exact way it will be published in the INFuture2011 proceedings<sup>1</sup>. **Maximum of 10 pages is allowed!**

You have received two versions of this guidelines and a template file:

- PDF version (INFuture2011-Paper Submission Guidelines.pdf),
- MS Word version (INFuture2011-Paper Submission Guidelines.doc),
- MS Word 2003 and higher document template version (INFuture2011.dot).

You should use them in the following way.

### PDF version

PDF version is not containing references of the MS Word style names. It could be used as a reference for the text preparation.

---

<sup>1</sup> The papers will be peer-reviewed; proceedings will have an ISBN number.

### MS Word version

Double-click at this file will open MS Word document with the guidelines and the names of the styles added to the document. To see available styles in the task pane go to Format/Styles and Formatting. The list of styles will open in the task pane. The styles relevant for the text-preparation are those which name start with "INF11". You can copy-paste your text over this guidelines and apply the appropriate styles where needed. You can do this by selecting a part of the text that you have copied and clicking at the appropriate style name in the task pane. Detailed information about text formatting can be found in Table 1.

### MS Word v. 2003 and higher template

Double-click at this file (INFuture2011.dot) will open a new blank MS Word document containing styles you should use. To see available styles in the task pane go to Format/Styles and Formatting. The list of styles will open in the task pane. This file can be used to prepare your papers using predefined styles. The styles relevant for the text-preparation are those which name start with "INF11". Detailed information about text formatting can be found in Table 1.

## **Guidelines**

### **Font**

You should use Times New Roman font throughout the text. Follow the sizes specified in the Table 1 for different text elements.

### **Format**

You should prepare the camera-ready paper on the A4 paper size (210 mm x 297 mm) with the margins set as follows: top and bottom (5.2 cm), left and right (4.25 cm).

Align text both on the left and right margin (justify). Use single space between the text and the subtitles. Do not add space between paragraphs or footnotes.

### **Tables, diagrams, charts, pictures**

#### *Tables, diagrams and charts*

Number each table/diagram/chart. The table/diagram/chart heading should be placed above the table/diagram/chart. Try to add the table/diagram/chart after it is mentioned in the text. Add source information below if applicable. In diagrams and charts, use black/white/shades of grey/pattern fillings rather than colour.

#### *Pictures*

Number each picture. The picture heading should be placed below the picture. Try to add the picture after it is mentioned in the text. Add source information if applicable.

### **Conclusion**

Be short and up to the point. Do not use tables, diagrams, charts or pictures in the conclusion.

**Camera ready paper of no more than 10 pages should be uploaded to the conference online submission system no later than 1 June 2011 both in MS Word DOC (v. 2003 and higher) and Adobe PDF format. Additional pages will be charged 50€each!**
