Call for Papers

The Future of Information Sciences (INFuture) is a series of biennial international conferences aimed at researchers and professionals from the broad field of information and communication sciences and related professions.

The objective of the conference is to provide a platform for discussing both theoretical and practical issues in information organization and information integration.

TOPICS (in brief)

1. Governmental and Business Sector Informatics
2. e-Health Applications and Solutions
3. Human-Computer Interaction and Language Technologies
4. Digitisation, Records Management and Digital Preservation
5. Personal Digital Information Management
6. e-Science
7. Her.IT.age
8. Community Informatics
9. Integration of ICT in Education
10. e-Encyclopaedia - topic organised in association with
The Miroslav Krleža Institute of Lexicography

Official language of the conference is English.

All papers undergo international double-blind peer review and are indexed in relevant databases.
